PIVOTING HINGE

PRATO Pivoting Shower Hinge

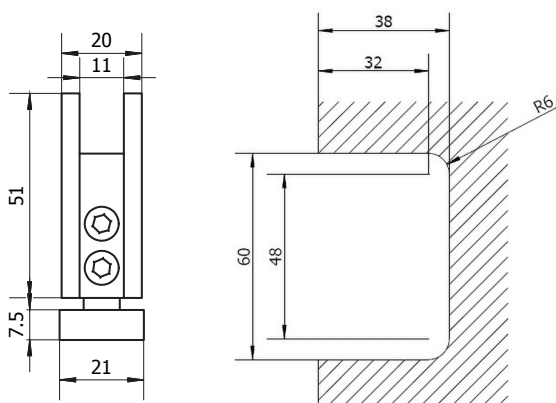

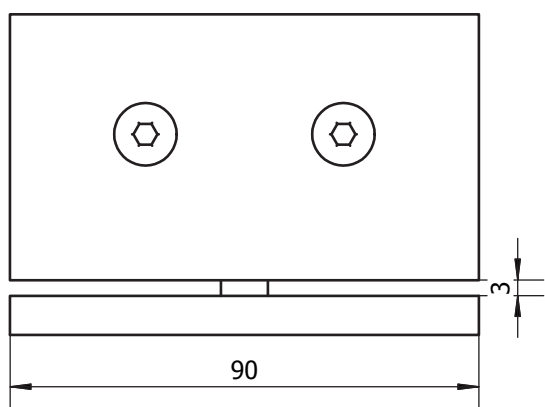

PRATO by FGS Hardware is the revolutionary new pivoting system for frameless showerscreens. This pivoting style door provides a dramatic and contemporary alternative to the common frameless shower hinges.

PRATO pivot hinges offer even more possibilities for unique designs and applications. These hinges can be inset from the wall, enabling clearance for towel bars and other projections.

Suitable for 8 and 10mm glass, PRATO hinges have been successfully tested to 50,000 cycles and are covered by a comprehensive three year mechanical warranty.

Available in Polished Chrome & Electroplated Black Finish
 Custom finishes available for project order.

FGS Hardware are the market leaders in custom colour matching on showerscreen products.

- Available in Polished Chrome, Electroplated Black

BRUSHED NICKEL

NEW PRODUCT RELEASE!

This revolutionary new electroplated finish was developed using advanced technology, resulting in a finish that ensures high quality and durability.

The electroplated finishes involve electrical current processes to form a coherent metal coating, where electroplating essentially changes the existing surface properties of an object, to which layers are added to increase abrasion and wear resistance.

FGS Hardware are the market leaders in quality Frameless Shower Hardware. Our V2 Hinges are precision engineered to be the strongest, most reliable hinge available.
